THERE are frequent complaints made that the government lands around are being denuded of timber, that is wherever there is any timber, by the Mexicans, who seize on anything that will burn. There are laws that apply to this case, and whoever has this duty to discharge might look the matter up. Probably the Mexicans do not get much and do but little harm.

THE registration of voters at Naco has greatly exceeded the expectations formed by those who are interested in that matter. There are over sixty names on the register and quite a number will vote there who are at present in this town. The politicians who, of course, are deeply versed in everything that concerns the course of an election, are actually in doubt as to which way Naco is inclined and consider that it is an even bet on either party. There will be about 75 votes down at Naco, a fact well worthy the consideration of the candidates who will no doubt beat up that field thoroughly.

TODAY is a democratic field day in town, and no doubt both sides the question will be represented at the meetings. Every man anxious to study and hear the questions of the day discussed of course attends the political meetings of either party. True enlightenment on any subject consists in a knowledge of that subject in its various phases. It is a sign of mere bigotry to esteem everything wrong that is not exactly in one's peculiar line of opinion. This is merely one sign of narrow mindedness, and arises chiefly from a treatment of any subject from one point of view merely. At the last great meeting were numerous followers of each great party, and both sides expressed their satisfaction with the treatment of the various political questions by the republican orators on that occasion.

THE stock in the Bisbee News company is held by gentlemen some of whom are Republican and some Democrats. In order to equalize the treatment accorded the different parties represented in the company it has been decided that the Republicans control three columns of the REVIEW and that the democrats also have three columns for their special use. This will enable both sides to fairly express their opinions on their particular tenets, and will also enable them to extol the merits of their candidates. This will bring the paper into line as an independent paper. The only advantage that can be gained will be on the side of eloquence in boosting some candidate or by way of showing up with all the forces of wonderful rhetoric a pet theory of the writer. This will afford the people in the county an opportunity of judging of the merits of the different candidates they are asked to vote for, and to study from the same source both sides of any important local or territorial question raised for their decision.
